THE CONCEPT

RHÔNE VALLEY, 2050

With global warming, the vines of the Rhône valley can no longer stand the heat. Pistachios, on the other hand, need little water and love the sun.

La Pistache d'Or takes over the land and know-how of former winegrowers: same land, same hands, a new crop. The brand turns the pistachio into “L'Or Vert du Rhône”, a local, desirable, low-carbon product made for the apéritif.

LA RÉGION A CHANGÉ,
NOTRE PASSION EST RESTÉE.

“The region has changed, our passion remains.”
